ABOUT FUTURESCAPE HACKATHON

Step into the future with FutureScape, a national-level hackathon inviting innovators from across the country to challenge and redefine the possibilities in data science and technology. Through a unique series of rounds, participants will journey from data exploration to creative problem-solving, tackling critical issues of today with data-driven insights and strategic thinking. Designed to inspire collaboration, ingenuity, and meaningful impact, Future Scape is an opportunity to connect, innovate, and envision new solutions for the future.

WHO CAN JOIN

Future Scape Hackathon is open to all undergraduate students, regardless of course or academic background. If you're passionate about technology, innovation, and creative problem-solving, this is your chance to compete with top talents from around the country, build lasting connections, and showcase your unique skills. Join us to push the boundaries of what's possible!

REWARDS

Participants have the chance to win exciting prizes, earn recognition from industry leaders, and unlock potential internship and collaboration opportunities with our partner companies. Don't miss this rare opportunity to make your mark!

With a Prize Pool of

40K

The stakes are High!

FLOW OF EVENTS

The Future Scape Hackathon 2024 is divided into three exciting rounds, each testing a different set of skills. Participants will need problem-solving, data insight, and entrepreneurial prowess to progress from one round to the next.

9th Nov

**Round 1:
Jigsaw Puzzle
(Online)**

Challenge your problem-solving skills with a multi-level jigsaw puzzle designed to test speed and strategic thinking.

10th Nov

**Round 2:
Data Untangled
(Online)**

Get hands-on with data, uncover meaningful insights, and present them in a compelling format.

14th - 15th Nov

**Final Round:
Rehack: Rethink
& Reinvent**

Lavasa, Pune

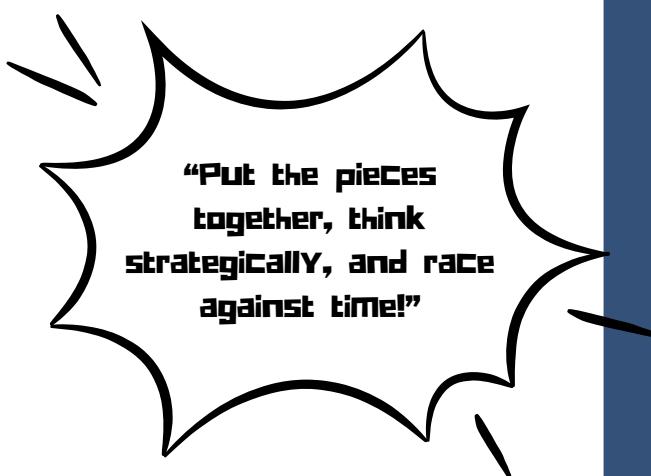

Deconstruct, discover, and redefine – how would you elevate what already exists?

ROUND I

JIGSAW PUZZLE CHALLENGE

“—

Welcome to the first round – the Jigsaw Puzzle Challenge! In this fast-paced round, you'll tackle a five-level jigsaw puzzle designed to test your critical thinking and speed under pressure.

Challenge Structure:

5 Levels: Each level consists of a unique puzzle, four smaller puzzles leading up to a final bigger picture that brings all previous puzzles together.

Objective:

Complete each puzzle as swiftly as possible. The total completion time will be used for evaluation, so strategy and speed are key.

Evaluation Criteria:

- Participants will be ranked based on their completion time for all five levels.
- Those who complete the puzzle rounds quickly will progress to the next stage.

The second round brings you to Data Untangled, where analytical minds take center stage. Your goal: extract meaningful insights from a complex dataset and communicate them effectively.

ROUND 2 DATA UNTANGLED

Task: Analyze the data provided using any tools or methodologies of your choice, and uncover valuable insights.

Deliverable: Present your findings in a well-crafted article, integrating visuals like charts, graphs, and infographics to clearly convey your insights.

Evaluation Criteria:

Insight Quality:

Judges will evaluate the depth, originality, and relevance of insights obtained.

Visual Presentation:

Effective use of visuals to communicate data insights will be rewarded.

Article Structure:

Clear and engaging article design, including clarity, coherence, and professionalism in writing.

ROUND 3: TCH FINALE

ROUND 3.
TCH IT

UnCover the essentials,
Spot hidden potential,
and envision what
could be. Let's see
what You can reveal

ROUND

FINAL ROUND REHACK: RETHINK & REINVENT

In this round, you'll dig deep, rethink simplicity, and find ways to amplify impact. Get ready to analyze, refine, and propose a breakthrough solution that elevates what's already in place.

Task:

Choose a product or domain, strip it down to its core, and pinpoint a functionality that has untapped potential. Develop a solution to improve this area and project its potential impact.

Deliverable:

Present a detailed proposal that explains the product's core, identifies the improvement area, and showcases a prototype of your solution. Conclude with a forward-looking analysis of how this improvement could drive growth.

Evaluation Criterias:

Clarity and Analysis: Did the team effectively break down the product and identify its essential elements?

Insightfulness of Improvement: How compelling is the identified gap, and does the solution address it thoughtfully?

Impact Projection: Is there a strong case for the improvement's potential to enhance growth?

Creativity and Presentation: The originality of the idea and the professionalism of the presentation will be essential in the final judgment.

REGISTRATION FEES

Round 1 *Rs 50 (per team)*

Round 2 *Rs 150 (per team)*

Round 3 *Rs 300 (per team)*
